

## Blacked Out

OmenXIII

It's like my whole life still the same thing on a brand new screen  
Pulling in the driveway clean, you can put that on me, put that on me  
Smoking these drugs with my brothers, then we gotta eat  
Every day in these motherfuckin streets, you can put that on me, put that on me  
I'm just tryna maintain, you still tryna make waves in the seas that you cannot be  
All of my brothas just hustle, bitch, put that on me, put that on me

Got 2, 3, 4, 5 killas in the backyard chillin' right now  
Got 6, 7, 8, 9, bitches tryna kick it, how we livin' in my city right now  
Omen 1-3 gotta keep low key, black shirt, black jeans on me  
10 black nails to the grave, you can put that on me, put that on me

Blunts in rotation  
Plug pullin' up, you get served like a waiter  
Got what you needed, my nigga, don't thank me  
We ride or die for this shit where I'm stayin'  
Fuck what you sayin', fuck is you bangin'?  
Bullets don't discriminate when your brain hit  
Blade to your body leave you on the pavement  
I put 'em deeper than six feet, I'm dangerous, fuck who you came with  
Windows blacked out when I pull up, I don't need to see a thing  
What's in my cup? Anything, everything, you can put that on me  
I'm just tryna maintain, you still tryna make waves in the seas that you cannot be  
All of my brothas just hustle, bitch, put that on me, put that on me

Got 2, 3, 4, 5 killas in the backyard chillin' right now  
Got 6, 7, 8, 9, bitches tryna kick it, how we livin' in my city right now  
Omen 1-3 gotta keep low key, black shirt, black jeans on me  
10 black nails to the grave, you can put that on me, put that on me

I look at life, and I wonder if it look at me  
I smoke a blunt and let go of these stresses on me, who put them on me?  
I'm just tryna maintain, you still tryna make waves in the seas that you cannot be  
All of my brothas just hustle, bitch, put that on me, put that

on me

Got 2, 3, 4, 5 killas in the backyard chillin' right now  
Got 6, 7, 8, 9, bitches tryna kick it, how we livin' in my city  
right now

Omen 1-3 gotta keep lowkey, black shirt, black jeans on me  
10 black nails to the grave, you can put that on me, put that o  
n me
