

# Built To Destroy

OmenXIII

Neighbourhood watch always calling the boys  
Starting the trouble and causing the noise  
Taking a risk like the flip of a coin  
Turn off my phone it was getting annoying  
Bitch on my dick, told her friend she should join  
Nigga talk shit, hit his ass in the groin  
Can't show no mercy, I don't have no choice  
Nigga since birth I was built to destroy  
Neighbourhood watch always calling the boys  
Starting the trouble and causing the noise  
Taking a risk like the flip of a coin  
Turn off my phone it was getting annoying  
Bitch on my dick, told her friend she should join  
Nigga talk shit, hit his ass in the groin  
Can't show no mercy, I don't have no choice  
Nigga since birth I was built to destroy

Bitch I'm the shit  
Damn I'm so lit  
Feel just like Tanner when I drive the whip  
Pull out the pistol and I let it rip  
Stole all his cash, he was acting all rich  
Just hit a lick, bust me a strip  
Ain't got no time for no stupid ass bitch  
More money equals more chains on my neck  
Feel like Chief Keef when I bust with this tec  
Bitch I'm a threat, leave him a wreck  
I got the braille like I been hambergite  
Rep for the set, power respect  
Fall off the bridge, now you watching you step  
Treat 'em like fish where I leave 'em all wet  
Pushing that weight gotta start from the chest  
Life is a bitch, but I'm sucking her breast  
Messing with me, I'ma leave 'em a mess, ho

Ever since birth I was built to destroy  
I know they ducking, they don't have no choice  
Fuck with the brothers, we making the noise  
Talking we keep it going  
We super hot, they don't know what we know

Hit through the walls, gonna leak through the floors  
We go slow-motion, we going in ghost  
We get it too, we kicking in doors  
Freshmen sacking, y'all been lacking  
I was on days been passing  
Flow is so devil, smoking desert  
Every single day feels like my last bitch  
Pull up we did a show like what  
Everything we really say they trust  
Fuck anybody that fuck with us  
We wish the cokeheads would leave 'em numb
