OmenXIII

I don't really need that much to see  
The more you go to get is the more you gonna need  
I am not the follower, no I will take the lead  
I am not the lock, XIII is the key

Open up the chamber of secrets, lock away collections of regret  
s  
Hangin down from the ceiling, copin now with my demons

I am not afraid, I want to feel the pain  
I am not afraid, I want to feel the pain
