

Cold Reality

OmenXIII

Let's keep it real (bitch), fuck how you feel (bitch)
I spent way too much time to sign deals (bitch)
Sacrificed way to much life to just yield (yeah)
Still independent, still GoGettin'

My life creepin', creepin' away from me (yeah)
I just let it, that's just my tendency (yeah)
I'll keep livin' (yeah), I'll keep killin' (yeah)
Anything I gotta do to feel anything

Nightmares, life's bare, everythings a bad dream
I don't put too much faith in things that don't breathe
Nowadays people just want to believe anything
Some of them so convinced that the blind can lead

I create the vision, then I share and observe
Never once did I ask them to step into my world
Never once did I ask them to believe me in fact
It's something natural the way they gravitate towards my attack
(what?)

Let's keep it real, fuck how you feel (what-what?)
Let's keep it real, fuck how you feel
Let's keep it real, fuck how you feel
Fuck how you feel, bitch, fuck how you feel (what?)

Let's keep it real, fuck how you feel (what-what?)
Let's keep it real, fuck how you feel
Let's keep it real, fuck how you feel
Fuck how you feel, bitch, fuck how you feel
