

The conflicted and scripted, the mind of a misfit  
Been there, done that everytime I did shit  
Between you and me, could you tell me what's the difference?  
You couldn't, there isn't, you shouldn't, you wished  
I'm the same piece of shit, call up you and admit it but you  
You're the type to get life and misuse it, abuse it  
Then ditch yourself, who's really listening?  
Is it you? Are you listening?  
I do it for the kids and I do it for the listeners  
Do it for myself, never do it for appeal  
Let your eyelids drop when you paint you a picture  
All black, now you know how the prince feel  
Say you know how I feel but I know you really don't, bitch  
Say you got a problem but I know you really don't, bitch

I just wanna shut my eyes  
I just wanna cut my ties  
I just wanna sleep at night  
I just wanna live my life  
I just wanna shut my eyes  
I just wanna cut my ties  
I just wanna sleep at night  
I just wanna live my life

I don't give a fuck about you  
Fuck your clique and fuck your crew  
OmenXIII stay making moves  
Riding solo like I do  
Flow stay slow, ain't in no rush  
People ride fast but they don't say much  
Feet on the dash, get my head from the sun  
Thinking about the past and the past tried to run  
(Huh Huh)  
Let me catch my breath  
Doing what I want then I'm on to the next  
I know I shouldn't sweat but I get so stressed  
I'm just making music, get it off my chest  
Now my voice pouring out the speakers  
Like a preach but I am not a preacher  
OmenXIII with the touch of the reaper  
Touch your dreams if you get too eager

I just wanna shut my eyes  
I just wanna cut my ties  
I just wanna sleep at night  
I just wanna live my life  
I just wanna shut my eyes  
I just wanna cut my ties  
I just wanna sleep at night  
I just wanna live my life
