

Counting Sheep

OmenXIII

Speaker stay hot
But my heart stay frozen
Think I'll ever give a fuck
Then you don't know omen
OmenXIII, I got blades on me
You still talking bout that action
Let you have it got to sleep

Toss and turn in your sheets
Can't sleep
Counting sheep
All these cowards in the world
Don't know what they want to be
I'm the prince of the shadows
Till I rest in fucking peace
Don't give a fuck 'bout what you think
I'm in thirteen
To unique

Speaker stay hot
But my heart stay frozen
Think I'll ever give a fuck
Pussy boy I thought I told you
OmenXIII, I got blades on me
You still talking bout that action
Let you have it got to sleep

Swerving around with same four
Same bitch
No money
But you still hit the same licks
Same situation
Still fucked up with the same shit
Life really sucks
But that's how you gotta live it
OmenXIII, don't give a fuck about trivial things
Don't give a fuck about living the dream
Or stepping on the scene
On the ground for the cream
Out of your reach
