OmenXIII

Teardrops fall down, feelin' like razors
Cuttin' through skin 'cause I feel it much deeper
Look up at my face, see nothing
'Cause the pain took away so much of the meaning
Now I fuckin' wake up every day, tryna keep it all at bay
But emotions still creep in
I'ma have to find another way
I've been feelin like shit and I don't wanna be this
No secrets, nothing I'm keepin'
No dreams and I never had regrets
No weakness, so we ain't equals
I'm the Reaper, King of the Demons
My life has always been like this
My mind has never been right, bitch
No light, just look in my eyes, bitch
I fight until my last night, bitch
Step into the Earth on the way down
Welcome to my world, there's no way out
Messin' with demigod get leveled 'cause I'm droppin bombs by the semi-ton now
Shadows wrappin' around your neck, tryna collapse your throat
Blades draggin' across your face, now you wanna go back home

Bitch, we never had home
So we tried to find somethin' in the smoke
Bitch, we never had time
Takin' mine while I'm sippin' on wine
Bitch, we never had home
So we tried to find somethin' in the smoke
Bitch, we never had time
Takin' mine while I'm sippin' on wine
