

Destruction

OmenXIII

Floating through the game with ease
I get the check, I do not stress, and I don't rest or breathe
I see you bitch, I see you flex, you ain't impressin me
I got my own shit, keep on spending, I feel like a king
I'm on my own, I'm on the road, so they can't fuck with me
I'm runnin the show from front to back bitch, what the fuck you mean?
Now they can't sleep, but they just dreaming when they think of me
Now see my reach, bitch all my fans know that we family
It's _Blk indeed

Destruction, we touch it and turn it rubble
We run up this money then run it up double
We put up the pressure without any lecture
And let it come down til we see that they buckle
I came cross the nation without explanation
And do what I want on a regular basis
Lately I'm living my day to day no hesitation
And no one can save me
BITCH
