

Born too soon, taking too long to die
Take it in stride, only get one try
Still ask why, I'm alive just to die
Lost to the truth so I'm stuck in a lie
Life keeps changing, waking up daily
I don't wanna change it
Death comes soon, so we all have to face it
Life ain't a race or a place that you go
So that's why I'm alive, feeling lost, no home
Let go of the past, you can thank me later, pay in advance
Need attention for impression to last
Need intention to make a choice on a path

Now I cannot find a way out
Should I just give up or should I try to be satisfied
Does it even matter? What does it mean to be human
I don't really care, I just wanna pass with the time and
I've made my decision, I gotta live my life and
Nobody can tell me just how to do that right so
I walk into the shadows and I just keep my eyes closed
XIII The Reaper until I rest in peace so
Stay out of my way if you wanna live

I can't breathe, I can't sleep, without you next to me
I can't breathe, I can't sleep, without you next to me
I can't breathe, I can't sleep, without you next to me
I can't breathe, I can't sleep, without you next to me

Never liked my shit so you won't like this
OmenXIII, still that Yung Misfit
Ten black nails with the blade in my grip
Black shirt, black jeans, bitch, you know what it is
I've been doin this for a minute now, I'm steady countin digits
Critics listen to the sound but they don't listen the lyrics
Fuck the image, I was really in pain back then
Nowadays, same pain, don't have to pretend

Now I cannot find a way out
Should I just give up or should I try to be satisfied
Does it even matter? What does it mean to be human
I don't really care, I just wanna pass with the time and
I've made my decision, I gotta live my life and
Nobody can tell me just how to do that right so
I walk into the shadows and I just keep my eyes closed
XIII The Reaper until I rest in peace so
Stay out of my way if you wanna live

Where are you?
Where are you?
Where are you? Where are you?
Where are you? Where are you?

I can't breathe, I can't sleep, without you next to me
I can't breathe, I can't sleep, without you next to me
I can't breathe, I can't sleep, without you next to me
I can't breathe, I can't sleep, without you next to me
