

Drown

OmenXIII

Bitch, we drown in the blunt smoke, never gun smoke
Just hope if we see you we don't let it unload
Unfold the unknown and leave those stories untold
Now my money up every single time I upload
Cut Throat Killa Killa, but you never seen bloodshed
OmenXIII, I'm the king, give a fuck less
Unless you really got my back when the sun sets
Sucks when they just wanna come up off your success

Bitch, back up off me, I don't think I know you
Came up in this shit all by myself like I wanted to
Who put me on, bitch? Can't nobody tell me
Labels making offers, they should know they cannot sell me
Truth is they don't want the truth, that's the true shit
Ruthless, the way I broke through with my movement
Everybody tryna be cool but it's useless
Don't really give a fuck who you really cool with

Young MISFIT beat the odds, no job, 'round the clock
No applause when you drop, lil bitch, get off my jock
Why you scared? Better duck, XIII pressing luck
Comin' through when I want, everybody know wassup
Tryna live my life, but you can not afford it
Stackin' up these racks, 25 city tourin'
Independent by the way, see the difference night and day
I don't need somebody's money just to build myself a dream

Creeping through the shadows with new Docs up on my feet
I don't need to rep a city, why you tryna rep a street?
I don't need no fucking bitches, stay at home and smoke my weed
Tell these kids to mind their business, 'cause they broke, they
need to eat
I got racks on racks on racks on racks and I ain't got no 9 to
5
I got tracks on tracks on tracks on tracks so everybody know I
grind
Yeah, they see me coming up, and now I see them comin' 'round
But I'm not so friendly to new faces when I meet them now

Bitch, we drown in the blunt smoke, never gun smoke
Just hope if we see you we don't let it unload
Unfold the unknown and leave those stories untold
Now my money up every single time I upload
Cut Throat Killa Killa, but you never seen bloodshed
OmenXIII, I'm the king, give a fuck less
Unless you really got my back when the sun sets
Sucks when they just wanna come up off your success
