Sitting in the moonlight, it's just me and you, but I
I know what to do, if you just let me I can do it right
I don't talk to no one, I know that I'm different
I ain't even tripping, shawty, I just want no business

I'm smoking and I'm sipping
Shawty sending emojis
I don't reply that often but my shawties make me want it
You know I been on a come up
Working 9 'til 7
I don't know how you need it, shawty, but tell me how you want it

Yeah, I like her features
I like drugs and bein' high
I know she a keeper, but I can't just seem to keep her
I can't say I love her
I don't know what love is
Yeah, I want to help you, can you help me please feel it?

Can you see the real me?
I hope you can feel me
I think you can heal me
I want you to feel me
I just want the real you
You know that I feel you
I think I can heal you
Others try to feel you
Can you see the real me?
I hope you can feel me
I think you can heal me
I want you to feel me
I just want the real you
You know that I feel you
I think I can heal you
Lemme try to feel you

I don't got time to keep on wonderin' if you still comin'
We can stack our money, get a place, hope nothing come up
I don't need nobody besides me, but, boy, I want ya
I know how I want it, yeah, I want it right now
I'm goin' up, so can you hold it down?
