

Fuck who you came with (Fuck who you came with)
Fuck who you stay with (Fuck who you stay with)
Workin every God damn day
I don't need to hit the hay, motherfuck a vacation
Omen slidin' into your playlist, Lames get up outta my lane quick
Swervin all God damn night, butterfly be the knife that they know that I came with
You can't hang with gang round here
We don't ever switch lanes we just say what we need to
We don't even struggle with same shit, lame kids tryna get plays, nowadays we don't need to
Bitch we don't need you
Bitch we don't need proof
My whole clique been down with the shit
If you want it then you can see to

We stay solid just like my hard drive
Encrypted files stay archived
Sittin in a place they ain't never even heard of
If you pull up get access denied
Binary God what the fuck is you on, they don't even know what I'm sayin
01001000 01100001, bitch
