Gatekeeper

OmenXIII

I see a hundred thousand demons when I open up the gateway
Bitch, better back up all the data in your database
Stealth levels up when I infiltrate the main frame
You can't get away, I see everything

Touch of the reaper touch anything, kill 'em and delete 'em and
 repeat it til I can't, mane
You could never fathom all the hours I spend wandering the chas
ms of my apathetic membrane

Click and delete, bitch, it's so easy, I rinse and repeat
Lost your devotion now your soul I keep
I thought I fuckin' told you not to dance with a demon

We get buck, we bump the trunk thumpin' ruckus
I'm in the underground, huh, but I'm under nothing
Get fucked bitch, I don't have no sympathy left in me
Got a screw loose, if you thinkin' you bestin' me

Black shirt black jeans and a blacked out sleeve
XIII Brought 10 black nails to the scene
No no they can't fuck with my energy
We know it's not a mystery, I'm somethin' that they'll never be

They could never fuck with my energy
No, no they can't fuck with my energy
They could never fuck with my energy
We know it's not a mystery, I'm somethin' that they'll never be
