

# I Know It's Complicated

OmenXIII

I close my eyes then I see your eyes  
I look around and you're not around  
In my mind I start to realize (Start to re-a-lize)  
Ayy, ayy

Tell me if you need me, you know that I need you  
I don't really need you, I just really want you  
I want you to come through, ayy  
Tell me what you wanna do  
Tell me what you wanna do, ayy  
Tell me what you wanna be, tell me if you want me  
You don't really need me, I just really want you  
Tell me what you wanna be  
Baby, won't you come to me  
Baby, won't you come to me

Come to me, come to me  
Come to me, come to me  
Come to me, come to me  
Come to me

Tell me if you need me, you know that I need you  
I don't really need you, I just really want you  
I want you to come through, ayy  
Tell me what you wanna do  
Tell me what you wanna do, ayy  
Tell me what you wanna be, tell me if you want me  
You don't really need me, I just really want you  
Tell me what you wanna be  
Baby, won't you come to me  
Baby, won't you come to me

Come to me, come to me  
Come to me, come to me  
Come to me, come to me  
Come to me
