

It's Time To Go

OmenXIII

Nobody...

Bitch it's Mr. Switchblade, never switch lanes
Never hit lames, I just get paid
Never need time, I just sip wine
Never need yours, I just get mine
Only speak truth, never tell lies
Bitch I see through then I cut ties
You flip a couple scripts and you think you sick
But you just a bitch, bitch I'm quick to flip a switch
When I'm on something, when I'm on wine
When I'm off two, when I'm in the coupe
With the red cup and my head down
With the bass up and that's on loud
Uh, drown in the sound, lost in the sauce
Uh, we know you just a clown, know you ain't a boss
Uh, we know you just a bitch, you don't wanna die
Uh, bitch I been dead, this my second life
Bitch I been dead, this my second life
Bitch I been dead, this my second life
Bitch I been dead, this my second life

Bitch I been dead, this my second life
This my second chance, not my first dance
Dance with the Devil, dance with the king
Don't step up to me with two left feet
XIII the reaper crush your dreams
Uh, knock yo goofy ass back where you came from
Uh, you don't really make change, you don't make bucks
Uh, I really wanna kill, please give me a reason
Uh, I really wanna die, please give me a reason
