

Used to slit my wrist for kicks  
Rusty razors, touch my bones  
Fuck my life, fuck a bitch  
I just wanted to be alone  
It's the prince, on my throne  
In the shadows, at the steeple  
I'm sorry if I come off wrong but I'm not always good with people  
Cause some people make me sick, I am not so sure what worse  
Arrogance or ignorance, you trip on me I go berzerk  
I've been working on myself, I've been searching for my worth  
Hope that you don't got a problem, fuck with me I leave you hurt  
I just need to shed my skin cause I don't feel like I can breathe  
Like this shit just hold me in, it's like there's so much more to me  
I know hate is all I got, but I know love is all I need  
I think hate protects my love you see  
It's self-defense for my beliefs  
And I believe that no belief is worth a life  
That no-ones life should be so miserable and full of strife  
The worth of life is what you put in  
Cause it's the only thing that's really yours  
Nobody else can live it for you  
Now you've gotta make the choice

Will you live or will you die  
Will you struggle, will you strive  
It's hard to get up in the morning  
Hard to go sleep at night, I know  
Will you live or will you die  
Will you struggle, will you strive  
It's hard to get up in the morning  
Hard to go sleep at night, I know  
Will you live or will you die  
Will you struggle, will you strive  
It's hard to get up in the morning  
Hard to go sleep at night, I know  
Will you live or will you die  
Will you struggle, will you strive  
It's hard to get up in the morning  
Hard to go sleep at night, I know

You can plant the seed today but you will never see it grow  
Let my body decay, on what I've made, fertilize it help it grow  
I am moving slow, time is moving slow, in my zone  
I do not know if I'll ever find my way out of here but at least I can hope  
Sometimes I just get so caught up inside my head  
It's irony to me, it weren't for sesh then I'd be dead  
This little bit of time is all you got, you best enjoy it while you can  
First, you live and then you die, there's no difference in the end  
I used to stress so much, Struggle and fumble to find the peace  
But now I've become the light when there is no light to see

I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe

I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe

I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe  
I lay back, I relax, and I breathe
