

SESH

It's really fuckin' simple, somethin' like causin' effect
First you pull the fuckin' trigger then it hits your fuckin' head

Heard you sprayin' with the tech
Heard you think that you the best
I don't think you heard of X
I don't think you heard of SESH

Boy, I'm in that Honda Civic, I ain't even tryna flex
When I pull up on the set, it's like a motherfuckin' jet
All these niggas want reality but they don't want the check
I'm just gettin' to the cash, so I never need to rest
You gotta be strong if you playin' this position
And you gotta be a little negative to make a difference

Lowkey, shit
I ain't never fuckin' listened
I can count my fuckin' cash, so motherfuck the fuckin' system
When I my fuckin' shit, I think I exercise
'Cause I know my fuckin' freedoms, think I know my rights
Bitch, I'm climbin' to the top until I'm out of sight
Eatin' 'til there's nothin' left so now I'm eatin' right
You can catch me at a show, so downtown
You can catch me in the pit 'cause you know we get down
I'm just tryna leave some bruises, hoe, no bananas around
And you know I'm makin' music 'til they put me in the ground
All yo' shit is fuckin' wack
All yo' radios the same
Yo' whole industry sucks
And I think it's fuckin' fake

I don't give a flyin' fuck about anything you make
Bitch, you might be makin' dollars but at least I'm makin' change

Sometimes I can't control my mind
Sometimes I sleep before I fly
Sometimes I think I want to ride
I want to live before I die
Sometimes I can't control my mind
Sometimes I sleep before I fly
Sometimes I think I want to ride
I want to live before I die
