

Murder

OmenXIII

Let the legend show that I'm not the one to fuck with
I'll take your life if you coming with that fuck shit
Punk bitch, pull up if you really mad as fuck, shit
Honestly, you won't be pulling off when I'm done, bitch
Go get the hearse please, I can't stop causing casualties
OmenXIII, genociding for eternity
If you in the underground my apologies
The King of Demons coming through to kill your whole scene

Come and fucking get me, come and fucking get me
Come and fucking get me, come and fucking get me
Come and fucking get me
