

# Night Falls

OmenXIII

I'm a ghost, I'm a ghoul, I'm the fucking Grim Reaper  
Creep up in the shade, switching lanes, you better keep up  
Re-up, I been sipping on this Carlo Rossi  
I know they see me coming up but can't nobody stop me  
Watch me, throw yo weak ass in a moshpit  
Nollie treflips like I'm Mike Mo Capaldi  
Falling, everytime you steady with the aiming  
You better stick to praying, versus me you'll never make it  
Skinny black jeans on, XL tees  
Drop Dead on my back, floral print on the sleeves  
Scars on my wrist, no love inside of me  
Switchblade on my hip, press me and you will see  
Everything changed the day I really died  
Ever since then I've been stuck inside my mind  
I've been cramped, I've been stressed  
Can't breathe, can't stretch  
Can't see through the dark, in the shadows where I rest  
What's next, the quest  
No test, to pass  
Just life to live  
My right to give every single thing  
Up for, a chance  
To try, to smile  
You can, I can't  
I don't, I won't  
You breathe, I choke  
You leave, I hope  
I run, you hide  
I chase and you die  
Don't waste your time, if you hitting up my line  
You want what I got, but you don't ever try  
Every day I wanna live but every night I wanna die

Let me go, let me go, let me go now  
I really think I'm better off alone now

Let me go, let me go, let me go now  
I really think I'm better off alone now

Let me go, let me go, let me go now  
I really think I'm better off alone now

Let me go, let me go, let me go now  
I really think I'm better off alone now

Let me go, let me go, let me go now  
I really think I'm better off alone now

Let me go, let me go, let me go now  
I really think I'm better off alone now
