

One Warning

OmenXIII

We riding sliding, time goes blank
The windows up, the bass keep knocking
Fuck a punk and fuck a coffin
Fuck the bullshit, fuck the talking
Caution to the wind, see the close calls coming by the flossing
Shake me up I shake you off
Break my trust I break you off
If we riding, we ride it out
If we moving, we moving now
If we cruising we cruising slow
If we bumping we bump it loud
Don't give a fuck about your city fam, fuck your home
Sounds that go round keep coming round
If you run up we cut you down

If we riding we ride it out
If we moving we moving now
If we cruising we cruising slow
If we bump it we bump loud
If we riding we ride it out
If we moving we moving now
If we cruising we cruising slow
If we bump it we bump loud
If we riding we riding out (If we riding we ride it out)
If we moving we moving now (If we moving we moving now)
If we cruising we cruising slow (If we cruising we cruising slow)
If we bump it we bump loud (If we bump it we bump loud)
