When I upload, then they download, on the down low
DL on the DL, check yo TL
Blunt smoke, we got blunt smoke, we need much mo
If you see me, move around me, keep your head low
When I upload, then they download, on the down low
DL on the DL, check yo TL
Blunt smoke, we got blunt smoke, we need much mo
If you see me, move around me, keep your head low

Now I know they see me comin', now I know they fuckin worried
Bout the fact that I changed they vision, now the people see it
as blurry
Bout the fact that I changed the limits past the sky, right fro
m the curb
Bout the fact that I changed their minds about the ones they on
es they used to worship
We don't need to listen to your shit bitch
We won't even miss you when you're gone
Put them guns away, you fuckin with that kid shit
Real men know when to fuckin pull em

No hope, no hope, no hope, they got
No hope, no hope, no hope, they got
No hope, no hope, no hope, they got
No hope, no hope, no hope, they got
