

## Predator

OmenXIII

If you get tangled in the widow's web just take your last breath

Lay your head down, I will push my fangs into your chest

There is no antivenom that could ever reverse what I did

Wrap you up and let you run, then consume the nutrients

It's in my nature to survive, I only know one way to thrive

Kill anything that I don't like just to protect me and my life

What you see is what you get, let you see nothing in my eyes

I see everything around me and feel nothing left inside

I don't move without a motive, I don't sleep without my blade

My intentions keep me focused a direction from the grave

When it rains my exoskeleton protects me from the pain

There's nothing that could protect you from wicked thoughts inside of my brain

I move around-around my city I be dressed in all black

On the hunt, with my brothers we look like a wolf pack

I got eyes and ears surveilling all around the fucking map

If you step into our territory you won't make it back

I'm out for blood

Yeah

I'm out for blood bitch

I'm out for blood bitch

I'm out for blood

Yeah, yeah

I'm out for blood bitch

I'm out for blood bitch

I'm out for blood
