

Regret

OmenXIII

I'm tryna feel alive, but I'm dead inside
I walk with the moon and the night by my side
My friends and my family, they give me some purpose
So they don't deserve this, nobody's perfect
I am nobody without imperfection
I die every night, every day resurrection
My shadows the closest thing to understanding me
Are you understanding me?

I feel alone
Even when somebodies right there beside me I feel alone
It's nobodies fault but mine, I'm sorry I still feel alone
Even when somebodies right there beside me I feel alone
It's nobodies fault but mine, I'm sorry I still feel alone
I feel alone
