

## Stranger

OmenXIII

I don't know why you're doing it but it's not good and it's not  
healthy, it's not right. Not that I'm saying you don't have it  
together, I'm sure you do. You're a genius, you really are  
I know  
You're a genius  
I know

I am stranger to hello  
I've just been keepin' my head low  
Hated myself when I said yes  
Everything changed when I said no  
Everyone's different but I suppose  
That life's what you make it, so I make it go  
Further and deeper into the unknown  
Everything's difficult when you oppose  
All of the reasons they say that we fall  
I don't think that people are needed at all  
I don't think emotions or feelings are fleeting  
I breathe and start thinking the more we feel needed  
We cling to the things that make us feel completed  
People just want find some sort of reason  
We hate our mistakes and the more we repeat 'em  
That hate starts to bleed into feelings of regret

I am stranger to hello  
I've just been keepin' my head low  
Hated myself when I said yes  
Everything changed when I said no  
I am stranger to hello  
I've just been keepin' my head low  
Hated myself when I said yes  
Everything changed when I said no  
I am stranger to hello  
I've just been keepin' my head low  
Hated myself when I said yes  
Everything changed when I said no  
I am stranger to hello  
I've just been keepin' my head low  
Hated myself when I said yes  
Everything changed when I said no
