The Place That Shade Hits

OmenXIII

Finger ring, base in the place that shade hits
Separate face with blade, I'm dangerous
Another lame came, he can take the same shit
I don't switch lanes, bitch for me the lane switch
Finger ring, base in the place that shade hits
Separate face with blade, I'm dangerous
Another lame came, he can take the same shit
I don't switch lanes, bitch for me the lane switch

Can't take the pain, bitch I don't hear Baker
No part of me is too far from patient
I ain't even waiting, while you feeling dayless
Like a lot is on the line but I might aim at the face bitch
Just like a baller I'm dropping where ever
Basically to knock em, I don't know who was plotting
Bitch don't really got me and everything you talk about we don't really cove
r
We built the shit out from the ground, I know the real niggas got me
I got the blades by the bundle, I keep it modestly honest
What the fuck you really got besides a bitch that's platonic
I ain't stressing 'bout emotions or nobody else honestly
I just speak on what I need to, I don't need no apologies

Finger ring, base in the place that shade hits
Separate face with blade, I'm dangerous
Another lame came, he can take the same shit
I don't switch lanes, bitch for me the lane switch
Finger ring, base in the place that shade hits
Separate face with blade, I'm dangerous
Another lame came, he can take the same shit (alright)
I don't switch lanes, bitch for me the lane switch

Feeling shit, killing shit
Malicious and ignorant
Feelings I'm not feeling them, bunch of drugs I'm sellin' 'em
Bad bitch with me, popping pills like some M&Ms (Poppers)
Niggas acting feminine, bitches like some women man
Talk shit, get your ass stomped in some Timberlands (Alright)
Dirtier than Dan, little bitch meet dirty Ed (Really)
Militant, hit your ass head with the FN
Got no friends, posted with the mob, I'm a family man
Meet your doom, bitch I'm the end, do you understand
Come into my lair, be prepared then you
Never scared, bones everywhere, left one over there
Stepping up to me, get you knocked back down the stairs, bitch

Finger ring, base in the place that shade hits
Separate face with blade, I'm dangerous
Another lame came, he can take the same shit
I don't switch lanes, bitch for me the lane switch
Finger ring, base in the place that shade hits
Separate face with blade, I'm dangerous
Another lame came, he can take the same shit
I don't switch lanes, bitch for me the lane switch
