

# There's Something In The Water

OmenXIII

Fuck all that radio shit y'all be playing  
Got no peripheral got your mind vacant  
OmenXIII just might slide in your playlist  
Ain't tryna be famous all those niggas faking  
Your life ain't worth shit and I don't think you made it  
I don't think you different I don't think you sayin  
Anything I haven't heard it's amazing  
You acting like tommy boy no you ain't spraying  
These people don't believe the things they can't see  
I guess that's just why there's no faith  
I guess that's just probably why there ain't no change  
All of these lames yeah they looking the same yeah they looking  
with the Mac or a Glock but they really afraid they'll catch b  
ullets like pac  
Like my brother em when he got shot  
Rest in peace but the clock tick tock can't stop won't stop

You cannot cannot get the best of me

You gotta keep moving  
Gotta get through  
Ima do me so that you can do you  
And I don't give a fuck I can't fuck with the fool  
Need to get your mind right or you might be a tool  
Who gonna use you  
Who gone abuse you  
Better get used to all that bullshit  
That you been doing  
Who you fooling  
Ima come through and leave it all in ruins

You cannot cannot get the best of me
