

## Time Keeper

OmenXIII

I use to stress but now I don't  
I just close my eyes and float  
Like the water down the moat  
In the gutter by my home  
Like the air through my hair  
In a light autumn breeze  
Leaves falling on me  
Death is falling on me  
I use to hide but now I see  
Ride on nightmares chasing dreams  
Rimington on my hip  
If you really need some peace  
Just springs on my feet and my dirty old jeans  
Black shirt with the crease  
X L long sleeves  
In my room till the sun drops  
Wounds of gun shots  
Sidewalks, blood spots, hitting corners  
Ducking cops

I use to skip class  
Now I'm running for the cash  
Now I'm trynna make a stretch  
Now I'm trynna make it last  
Deep breath, hear my heartbeat  
Feet wet, cold breeze  
No time, no ties  
Blue tooth, hands free

I'm just doing me  
I'm just living life  
Still ain't in a rush  
Take my time to dispite, clouds in the sky  
Rain coming down wash away the fire  
I'm just doing me  
I'm just living life  
Still ain't in a rush  
Take my time to dispite, clouds in the sky  
Rain coming down wash away the fire
