

Virus

OmenXIII

Aye

Everybody know that I work hard
Everybody know I don't fuck with the law
Thinkin' that you know me but you dead wrong
Fuck around knock yo head off
Sippin' Seven Moons in the backyard
I ain't never really fuckin' liked myself
Other rappers tryna hit me up right now but
I ain't never really fuckin' liked y'all
I don't really need no co-sign
I don't really like these labels
Comin 'round, actin' like they fuck with you but
I don't really fuck with them fables
Bitch, I bet they won't hear this
Bitch, I bet they don't hear shit
Otherwise, they'd probably stop hittin' my line
Stop wastin' my time, and that's real shit

I be movin' through these streets
I ain't even gotta say please
Like the virus underneath
Spreadin' my own disease
I be movin' through these streets
I ain't even gotta say please
Like the virus underneath
I be spreadin' my own disease
