(Worthless)
Every day still nervous
Shhhhhh
Every day still nervous
Every day still nervous
Every day still nervous
Every day still, uh

Every day still nervous, cursed life on this Earth so worthless
Burden heavy on my back, I'm hurting
Curving everybody, every single person, worse is
I don't wanna be perfect
Headed to the top, I can only be certain
Cause these rappers actin so bitch made
I don't need to switch lanes, but I see they swerving. I'm
Sittin back in the back of the back all black
Got thraxx in the Drop Dead bag (Drop Dead bag)
Got bands, got racks, still looking for a reason I could smile in the end (s
till looking for a chance)
See the world through my lens so bland had to ask "What is life?" and I thin
k I found out (I think I found out)
Vicious cycles caught up in a cyclone, go with the flow till your fuckin lig
hts out (shh)

Dying to live, living to die
Does it really matter, should I even ask why?
Is it the truth, Is it a lie?
I don't have the answers that I wish that I could find
Dying to live, living to die
Does it really matter, should I even ask why?
Is it the truth, Is it a lie?
I don't have the answers that I wish that I could find

Don't know where I'm from, don't know where I'm at, get low when the shadows
get cast
Got blunts on the dash, Seven Moons in my hand, demigod bring the damage
Who brought 10 Black nails to the scene, that's me, bitch it's OmenXIII (bit
ch it's OmenXIII)
You can try, but you'll never be shit, see to me all your dreams are
Worthless
