

Make It Now

Omi

It's Monday not Friday
Fuck that I can't wait
Ain't waiting for the weekend make it now
Cause Monday to Friday
Want you in the worst way
Ain't waiting for the weekend make it now

Wrap my arms around you girl like a lasso
Squeeze you real tight never let go
We could ride away if you say so
Cross the border into Mexico

You're so wrong
You're making me wait so long
The way you just turn me on
And then make me wait some more

It's Monday not Friday
Fuck that I can't wait
I know you said the weekend make it now, now
Cause Monday to Friday
Want you in the worst way
Ain't waiting for the weekend make it now

In your lunch break
I'm coming to your office just to
Make your desk shake
I know, I know, I know you said
It's Monday not Friday
Too late on my way
Ain't waiting for the weekend make it now, now

Now you got a job in El Paso
Told me you could see me on the weekend, no
Dreaming of your body and soul
Damn the time is moving so slow

You're so wrong
You're making me wait so long
But when you just turn me
And damn, everywhere, someone

It's Monday not Friday
Fuck that I can't wait
I know you said the weekend make it now, now
Cause Monday to Friday
Want you in the worst way
Ain't waiting for the weekend make it now

In your lunch break
I'm coming to your office just to
Make your desk shake
I know, I know, I know you said
It's Friday not Monday
Too late on my way
Ain't waiting for the weekend make it now, now

Let's make it now, now
Let's make it now, now
Let's make it now, now

It's Monday not Friday
Fuck that I can't wait
I know you said the weekend make it now, now
Cause Monday to Friday
Want you in the worst way
Ain't waiting for the weekend make it now

In your lunch break
I'm coming to your office just to
Make your desk shake
I know, I know, I know you said
It's Friday not Monday
Too late on my way
We aren't waiting for the weekend make it now, now

Just make it now, yeah
Just make it now, yeah
Just make it now, yeah

We aren't waiting for the weekend make it now.
