

Stir It

Omi

I know what I want
And I want it right now, right now
I know what I need
And I need right now, right now
Cause you're looking at me
Like you're thinking it, too
I don't see nobody here
But us two

We can stir it all night
Girl, your body so tight
We can stir it all night
You can throw it back now
Don't hold nothing back now
We can stir it all night
Girl, your body so tight
We can stir it all night
You can follow back now
Don't hold nothing back now

I'm making you hot
I'mma give it to you right now, right now
I know what you got
And I want it right now, right now
Ooh, let me put it on you
Cause I know I could do
I don't see nobody here
But us two

We can stir it all night
Girl, your body so tight
We can stir it all night
You can throw it back now
Don't hold nothing back now
We can stir it all night
Girl, your body so tight
We can stir it all night
You can follow back now
Don't hold nothing back now

Oh, let me hear you say, oh-oh
Oh, let me hear you say, oh-oh
Hey, give it to me now
And let me put it on you
Yes, I know what to do
Ain't nobody here
But us two

We can stir it all night
Girl, your body so tight
We can stir it all night
You can throw it back now
Don't hold nothing back now
We can stir it all night
Girl, your body so tight
We can stir it all night
You can follow back now

Don't hold nothing back now
