

Call Me Satan

Omnia

Call me Satan call me Satyr
I'm Cernunnos I am Pan
I'm the laughter in the forest
I'm the happy horny one
Dionyssos Kokopelli
Lord of animals Green Man
And though it started long ago
My story's just begun

See the horns upon my head
the hooves on which I dance
Feel the passion rising up
Lose yourself in trance
There are many Gods inside your head
And I am only one
Believe in me I'll set you free
To worship me is fun

Because I stand for freedom
The forest wild untamed
I'm creative Chaos
no I just cannot be chained
You people think you're different
but to me you're all the same
So if you feel in need of me
well you can call my name

Call me Satan call me Satyr
I'm Cernunnos I am Pan
I'm the laughter in the forest
I'm the happy horny one
Dionyssos Kokopelli
Lord of animals Green Man

And though it started long ago
My story's just begun

And though it started long ago
My story's just begun

And though it started long ago
My story's just begun
