

# My Pain

Omnium Gatherum

Hey you over there  
Did you feel what I felt  
Hey you everywhere  
Did the pain stain go straight through  
I know I got shot  
I know you did too  
To be new

Everyday  
Someone betrays the trust  
Every way  
One fights the best of it

Fine line again  
Now you feel my pain  
Fine line again  
Now you feel my pain

In a search for salvation  
Some parts of us are true  
In our quest for our lost heart  
We travel to be new

Because

Everyday  
Someone betrays the trust  
And they say  
One fights the best of it

Fine line again now you feel my pain  
Fine line again now you feel my pain

Someday  
In the arms of love  
Some way  
In the arms of love

Everyday  
Someone betrays the trust  
Every way  
One fights the best of it

Fine line again  
Now you feel my pain  
Fine line again  
Now you feel my pain
