

# Unity

## Omnium Gatherum

A promise one hears  
A deaf plea to another  
Still they collide  
They have unity before perfection

It is the one which rules the name  
The one and the same, one and the same  
I have autumn in my heart tonight  
And the summer vine

I do it all  
All for unity  
I do it all  
All for unity, unity

So do we lay our promises  
Across the promised land  
Within the faithful scenery  
To see the words in the sand

I do it all  
All for unity  
I do it all  
All for unity, unity

Come with me fly and see  
Stars will shine to be voluntarily  
In unity  
Same dream will share infinity

I do it all for unity

I do it all for unity

I do it all  
All for unity  
I do it all  
All for unity, unity

I do it all for unity
