

## Deserted

## Once Human

Odium  
Dead or alive, exiled  
Locked out, left behind  
Odium  
Dead or alive, exiled  
Locked out, left to die

Rage rips out perception from the eyes  
Torn face, look down  
Redemption running blind  
Shut me out with cold hands  
Old words, lies  
Take down what I am  
Old hurt, revived

So, I made mistakes  
Tell me now, where do I belong?  
Deserted  
Know, I know the place  
Remember how somewhere it all begun  
Deserted

Odium  
Dead or alive, exiled  
Locked out, left behind  
Odium  
Dead or alive, exiled  
Locked out, left to die

Take a look in the mirror  
Look now, look in the eyes  
When you see it clearer  
No doubt, you'll see mine  
Now hear me out  
We all make someone's pain  
Go without a mistake  
You won't know how to change

So, I made mistakes  
Tell me now, where do I belong?  
Deserted  
Know, I know the place  
Remember how somewhere it all begun  
Deserted

Deserted  
Deserted  
Where it all begins
