

# Ground Zero

## Once Human

Fall of humanity  
The rise of recognition  
Controlled by vanity  
And self-obsession  
Status, the new God  
Worship the media whores  
Sodomise for admiration  
And your attention

Leeches  
Penetrate and bleed you  
Feces  
Full of shit they feed you

Creators of sheep in production  
Children, ground zero for destruction  
Future leaders of enslaved stupidity  
To detour the races from reality

Life is sacrificed  
All for the masochistic  
For the corpses well-preserved  
In fucking plastic  
All hail, the new church  
Built on false foundation  
Feed your need for pure perfection  
And fear rejection

Rapists  
Left after they used you  
Shameless  
You just hope they choose you

Creators of sheep in production  
Children, ground zero for destruction  
Future leaders of enslaved stupidity  
To detour the races from reality

You will devour  
All  
False  
Power

Refractions of chaos burn in your eyes  
Witness the birth, legions of earth and human demise  
Refractions of chaos blacken the skies  
Witness the curse burning the earth and all mankind  
All mankind

Let the chaos burn the blight from your eyes  
Bleeding out from inside  
Let it be what you denied

You will devour  
All with false power
