

Good Question

Ondara

It was over before we began
Now my solemn chair is where he was when he first came
And everybody was asking about it
Just getting hard to be outside
And as the dusk came down, I was finding my way around
Lost it a couple of times down there on highway 65
Your cousin is a bell caught up with ma, she was on a bill
City was hard to see us fight

So come on, baby, love me now
Love me like you never will again
So come on, baby, love me now
Love me like you never did a friend
So come on, baby, love me now
Love me like you never will again
So come on, baby, love me now
Love me like you never did a friend

Saw you in a bad film, you played the granny with a wide grin
Her brother was shot dead for laundering money for the cartel
Close friends we have been
For you had seven famous friends

Oh, come on, baby, love me now
Love me like you never will again
Come on, baby, love me now
Love me like you never did a friend
Come on, baby, love me now
Love me like you never will again
Come on, baby, love me now
Love me like you never did a friend

Love, don't leave me, love, don't leave me
Love, don't leave me behind
Love, don't leave me, love, don't leave me
Love, don't leave me behind

So come on, baby, love me now
Love me like you never will again
