

Stuck inside this shit

Mmm
Yeah

I can't get you out of my head
We were meant to be
I know you woke up wrong side of the bed
Cause' you never woke up with me
Girl I'm on my knees
I've been in quarantine
I'm sick, lovesick, lovesick

To all the ladies

Won't forget the last words that you said
Before you let me leave
You told me that love was dead
And now I can't rest in peace
Girl you're all I need
You're my friend, you're my G
How you're going to sit down and watch me bleed
So many questions in my mind, like
Where did we go wrong?
You know this bed is where you belong
Pray you're not thinking of moving on
I apologise, you know I make time for you
Pick up, don't ignore your phone
Your loving is all overdue, right for me, [?] for you

Yeah

I can't get you out of my head
We were meant to be
I know you woke up wrong side of the bed
Cause' you never woke up with me
Girl I'm on my knees
I've been in quarantine
I'm sick, lovesick, lovesick

To all the ladies

I can't get you out of my head
We were meant to be
I know you woke up wrong side of the bed
Cause' you never woke up with me
Girl I'm on my knees
I've been in quarantine
I'm sick, lovesick, lovesick

To all the ladies
