

Make U Crazy

One Acen

She says she loves me but she don't love this no more
When she said those words, I didn't want to live no more
Please believe me, I won't treat you like sh*t no more
Don't tear me apart because my heart can't split no more

I think about we like every day
I know we ain't never been great
Apart from do you like my best mate
But if you leave me we can never be mates
And I don't wanna lose friends
Sentimental things, even though everything comes to an end

I don't know what I do that makes you crazy
I don't know what you do that gets me mad mad mad mad
All I know is that you used to be my lady
I've never been
I've never been
I've never been so scared of losing what I've found ey
Both in the deep end but I'm drowning
Oo I just can't go any longer I'm lost without my
Without my
Without my bae

Do I ring any bells
Is anybody in there
I know I don't have the wrong address
Oh how you're telling me your love don't live here
How your tryna get the keys away I
Know I've been on my rolling stone shit
But I know where my home is
My sole is
Now I'm homeless
I know I made you hate me
I know I drove you crazy
I know you hold it against me
I know every chance you gave I messed
Now I'm fighting for whatever's left of us
Supported by good memories this is a feeling I cannot control
Can't even scroll through my camera roll
Only one thing I don't happen to know
Man I just don't know like

I don't know what I do that makes you crazy
I don't know what you do that gets me mad mad mad mad
All I know is that you used to be my lady
I've never been
I've never been
I've never been so scared of losing what I've found ey
Both in the deep end but I'm drowning
Oo I just can't go any longer I'm lost without my
Without my
Without my bae
Ey

I don't know what I do that makes you crazy
I don't know what you do that gets me mad mad mad mad
All I know is that you used to be my lady

I've never been
I've never been
I've never been so scared of losing what I've found ey
Both in the deep end but I'm drowning
Oo I just can't go any longer I'm lost without my
Without my
Without my bae
Ey
