

Buried Alive

One Desire

Cannot breathe, cannot see
Paralyzed and six feet underground
About to break, am I awake?
The air is getting thinner by the hour

There's no rescue in sight
Will I see the dawn?
Tell me how will I survive

Buried alive
For the first time in my life
You broke my heart and left me to the slaughter
Buried alive
And it cuts me like a knife
'Cause I will never know the reason why
Buried alive

You shot me down, stabbed my back
Stole my life and left me here to die
No escape from this place
Panic, terror building up inside

There's no rescue in sight
Will I see the dawn?
Tell me how can I survive

Buried alive
For the first time in my life
You broke my heart and left me to the slaughter
Buried alive
And it cuts me like a knife
'Cause I will never know the reason why
Buried alive

There's no rescue in sight
Will I see the dawn?
Tell me how will I survive

Buried alive
For the first time in my life
You broke my heart and left me to the slaughter
Buried alive
And it cuts me like a knife
'Cause I will never know the reason why
Buried alive
