

# Hurt

## One Desire

They see me search the darkest night  
But trouble came for what I left behind  
Hey, was it all pretending?  
I never dare to take the fight  
And now I'm stuck into this emptiness (I never saw the fall)  
And now it's never ending  
So what's the right direction?  
I still need to know where from  
'Cause now my heart is on the run

Hurt  
Does it matter where the pain is coming from  
When it still burns?  
And the fire here inside me wasn't enough  
Will we still love?  
Can't you see that there was only you and me?  
Until we burn  
Until we burn  
So what's the lesson learned?

My restless soul is up tonight  
Walking in the shadows of what was left of me  
Is there another way here?

They say this world will not run dry  
So where's the hope you feel the same as me?  
(Cause I never saw the fall)  
And it was never ending

So what's the right direction?  
I still need to know where from  
'Cause now my heart is on the run

Hurt  
Does it matter where the pain is coming from  
When it still burns?  
And the fire here inside me wasn't enough  
Will we still love?  
Can't you see that there was only you and me?  
Until we burn  
Until we burn  
But what's the lesson learned?  
Then if the time will come  
And it will tell us to be free

Will you still believe in you as you and me?  
'Cause all I know  
Is that our love will grow  
And all that we need starts from

Hurt  
Does it matter where the pain is coming from  
When it still burns?  
And the fire here inside me wasn't enough  
And we still love?  
Can't you see that there was never ending love?  
And it's still here

And it's still here  
And it's all alone  
And it's all alone
