Love Injection

One Desire

Maybe I should go to rehab
And try to get my broken life back
But I just can't stay away
I just can't fight it, no

Now the drug is flowing into my brain
I can feel it flowing through my veins
And without it I just couldn't stand the pain

I need to take you in
And shoot you up
And I will never let it go

Put the needle in my heart and inject it
'Cause your loving is my drug and I can't shake it
Give me that infected love, I gotta get some
Your love injection, your love injection

Put the needle in my heart and inject it
'Cause your loving is my drug and I can't shake it
Hit me with your overdose and your affection
Your love injection, your love injection

Give me that infernal ecstasy
You're the heroin that's gonna ruin me
You're the one that takes me so high
And so, so low

I need to take you in
And shoot you up
And I will never let it go

Put the needle in my heart and inject it
'Cause your loving is my drug and I can't shake it
Give me that infected love, I gotta get some
Your love injection, your love injection

Put the needle in my heart and inject it
Cause your loving is my drug and I can't shake it
Hit me with your overdose and your affection
Your love injection, your love injection

I know that I'm sick
I know that I'll die
'Cause when my heartbeat can't take it
Our love's slowly fading
I need that prescription
I'm under your spell

So just
Put the needle in my heart and inject it
'Cause your loving is my drug and I can't shake it
Give me that infected love, I gotta get some
Your love injection, your love injection

Put the needle in my heart and inject it
'Cause your loving is my drug and I can't shake it

Hit me with your overdose and your affection
Your love injection, your love injection

Put the needle in my heart and inject it
'Cause your loving is my drug and I can't shake it
Give me that infected love, I gotta get some
Your love injection, your love injection
