

# Never Gonna Stop

One Desire

My heart is beating faster  
Every fiber in my body's on alert  
Hear the engines roar like a thunderbolt  
Forgetting all the lessons that we learnt

Now we're losing ground  
And we're out of control  
Cause the mean machine is cruising through the sky

We're never gonna stop  
Tonight we're on the run  
We're never gonna stop  
It's a fight together one on one  
We're never gonna stop  
And you can't break my heart  
In this game of love we fight forever, on and on tonight

I can feel my blood is boiling hot  
The pain is like a virus in my brain  
When the wind is blowing up tonight  
Let's give it all we got and don't look back

Now we're losing ground  
And we're out of control  
Cause the mean machine is locked and loaded now

We're never gonna stop  
Tonight we're on the run  
We're never gonna stop  
It's a fight together one on one  
We're never gonna stop  
And you can't break my heart  
In this game of love we fight forever, on and on tonight

Just turn around  
Don't leave me behind  
We can make it if we try  
Yeah we can make it if we try

We're never gonna stop  
Tonight we're on the run  
We're never gonna stop  
It's a fight together one on one  
We're never gonna stop  
And you can't break my heart  
In this game of love we fight forever, on and on tonight
