

Hyperactive

One Morning Left

Take a look at yourself in the black mirror

Frustration
Makes us want to run through walls
Fixation
Blurs the line between highs and lows
Eye for an eye
Makes the whole world blind
But your neon-lights
Make us lose our minds

Hyperactive
Neon-frantic
Hyperactive
We're Cyber-captives
Hyperactive
Neon-frantic
Hyperactive
We're Cyber-captives

We are prisoners of your light
And we are ready to be ignited
This is a promise
You will find no solace

We are
Disconnected
We're under your spell no more
Disconnected
We're under your spell no more
You can't make us blind no more
Disconnected
We're under your spell no more

Take a look at yourself in the black mirror
Sensation
Of clarity fills your head with terror
Eye for an eye
Makes the whole world blind
But your neon-lights
Makes us lose our minds

Hyperactive
Neon-frantic
Hyperactive
We're Cyber-captives
Hyperactive
Neon-frantic
Hyperactive
We're Cyber-captives

We are prisoners of your light
And we are ready to be ignited
This is a promise
You will find no solace

We are

Disonnected
We're under your spell no more
Disonnected
We're under your spell no more
You can't make us blind no more
Disonnected
We're under your spell no more
