

Ruthless Resistance

One Morning Left

Take only what you can carry
Only what you need (ruthless resistance)

Take only what you can carry, only what you need

Tonight's the night
We begin our journey
Tonight's the night
We show no mercy

Through seven seas
No matter where you are
You hold the keys
Follow the neon star
I know, shadow of doubt follows you home
Remember you won't fight alone
We're the ruthless resistance

Things can get a little scary
But we won't bleed
'Cause together we will fight
We'll fight the cyber fuck
Together we will fight

Yeah, it's a long way to the core
But together we'll make it

Through seven seas
No matter where you are
You hold the keys
Follow the neon star
I know, shadow of doubt follows you home
Remember you won't fight alone
We're the ruthless resistance

No matter where you are
Your words are with me
My friend for you I'll fight
"Follow the neon star
And you'll find the city
The city of endless night"
We won't take his shit no more
We will break his fucking core
We're the ruthless resistance
