

Sinners Are Winners

One Morning Left

Young and restless, numb your senses
Party till you die and drink until you're breathless
Sleep is for the weak, you're a midnight freak
Shut your mouth and let your booty speak

Young and restless, numb your senses
Dance until you die, boogie woogie till you're breathless
You'll be rocking, till the morning
Shut up and let your hips do the talking

Why stop there you dance like you're on fire
Hold on tight cause I will take you higher

Wooh-oh, they say that love will set you free
But you can't love with a broken heart
So sinners are winners
Sinners are winners to me
Wooh-oh, they say that love will set you free
But you can't love with a broken heart
So sinners are winners
Sinners are winners

Drink another shot
Drink until you're hot
Drink until you drop
Drown your sorrows

Hands in the air like you just don't care
C'mon drown your sorrows

Young and restless, numb your senses
Dance until you die, boogie woogie till you're breathless
You'll be rocking, till the morning
Shut up and let your hips do the talking

Why stop there you dance like you're on fire
Hold on tight cause I will take you higher

Wooh-oh, they say that love will set you free
But you can't love with a broken heart
So sinners are winners
Sinners are winners to me
Wooh-oh, they say that love will set you free
But you can't love with a broken heart
So sinners are winners
Sinners are winners

Drink another shot
Drink until you're hot
Drink until you drop
Drown your sorrows

Hands in the air like you just don't care
C'mon drown your sorrows

Wooh-oh, they say that love will set you free
But you can't love with a broken heart

So sinners are winners
Sinners are winners to me
Wooh-oh, they say that love will set you free
But you can't love with a broken heart
So sinners are winners
Sinners are winners

Drink another shot
Drink until you're hot
Drink until you drop
Drown your sorrows

Hands in the air like you just don't care
C'mon drown your sorrows

Red cup, don't give a fuck if I live or die

Drink another shot
Drink until you're hot
Drink until you drop
Drown your sorrows
