

Just For Tonight

One Night Only

DHmiGA

D

Way across the plains

Hmi

The lights spell out a code

G

no-one knows where they take us

A

but we'll search till we grow old

D

All the paths they lead

Hmi

To the single solemn place

G

Then we'll stay for the weekend

A

D

And leave without a trace

Hmi

Just for tonight

G

Just maybe we'll make it

A

Sing like you want this

D

Sing like you want this

Just for tonight

Just maybe we'll make it

Sing like you want this

Sing like you want this

We can take tonight

Take our time

Sing like you need this

Maybe you want to

All the paths they lead

To a little standing place

And if you stay for the weekend

We'd leave without a trace

Just for tonight

Just maybe we've made it

Sing like you want this

Sing like you want this

Just for tonight

Just maybe we've made it

Sing like you want this

Sing like you want this

lalalala lalalalala

lalalala lalalalala

Just for tonight

Just for tonight
Just maybe we've made it
Sing like you want this
Sing like you want this

Just for tonight
Just maybe we'll make it
Sing like you want this
Sing like you want this
