

Back then always thought that you had my back
You were just there to stab it
Hindsight's 20/20 should've seen it then
Maybe I should get glasses

Screw me over like you didn't know my name
Oh I was so convenient
I don't know why you wanna play me like a game
True colors show

Now I can see
Exactly who you are pretending
We used to be alright don't lie
'cause now I can see
That you were never honest with me
I will never let you back into my life

Sakki made koko ni i ta hazu no anata wa doko e?
issai mikaeri o motome nai nante uso nara be
nani ka ga kowareru oto ga shi te mo nao zetsumyō na baransu de
kubi no kawa ichi mai tsunagatta omae sa

Now I can see
Exactly who you are pretending
We used to be alright don't lie
'cause now I can see
That you were never honest with me
I will never let you back into my life

Now I can see
Exactly who you are pretending
We used to be alright

Now I can see
Exactly who you are pretending
We used to be alright don't lie
'cause now I can see
That you were never honest with me
I will never let you back into my life
