

## Manhattan Beach

ONE OK ROCK

When I wake up feet touch the ground  
Whatever holds me down  
Just looking for some sturdy sounds  
So tell me about yourself and never say goodbye  
The less I know the less I cry

And I can't help but wonder why  
Things like you stay on my mind

So tell me about something  
So tell me about anything  
So tell me can you make me still believe?  
So tell me about something  
So tell me about anything  
So tell me can you make me still believe?  
A little more than now

Imi wa nai yo toku ni kono uta ni  
Fukayomi wa yamete  
Omoitsuita kotoba narabete  
Kuchibue karuku narashite junbi ga dekitara  
Gitaa mochi kimi ni todoku you utau yo

And I can't help but wonder why  
Things like you stay on my mind

So tell me about something  
So tell me about anything  
So tell me can you make me still believe?  
So tell me about something  
So tell me about anything  
So tell me can you make me still believe?

And I can't help but wonder why  
(Make me still believe)  
Things like you stay on my mind  
(Make me still believe)  
A little more than now
