The time is come for this special collaboration  
With SiM, coldrain, and Crossfaith  
The Japanese Dream Team  
Let's do it, Taka

Look at all of this shame  
Not gonna make it alright  
Just a little insane

Embrace the rage  
We're gonna make it our fight  
Watch it go in flames

And I'm thinking of the promises we made

Look at the sky fall fall  
Look at the sky fall fall  
(Look at the sky fall)  
Iki tsuku toko made iki tsuitara  
Nothing left for me to find  
All gone gone gone  
The sky fall

You know I never say die  
I'm gonna bring you down  
See past the lies

You're gonna lose this time  
Fucking end your pain  
I'm gonna kill the lights

And I'm thinking of the promises we made

Look at the sky fall fall  
Look at the sky fall fall  
(Look at the sky fall)  
Iki tsuku toko made iki tsuitara  
Nothing left for me to find  
All gone gone gone

This is your last time  
Knock you out  
I know you've done the crime  
You are my enemy

The last nail in the coffin  
Like a cold calling  
You know why the sky started falling  
Ooh la la, I know what's my role  
Oh are you ready to sell your soul?

And I'm thinking of the promises we made

Look at the sky fall fall

Look at the sky fall fall  
(Look at the sky fall)  
Iki tsuku toko made iki tsuitara  
Nothing left for me to find  
All gone gone gone  
The sky fall
